

CONFLUENCE WORLD SCHOOL
SCHOOL OF FIRST-AID AND BASIC EMERGENCY CARE
(PRE-HOSPITAL SERVICE)
LIFE-SAVING SCIENCE AND ART OF SAVING LIVES

Confluence World School takes the initiative to provide comprehensive First-Aid and Basic Emergency Care education. Our program is structured to ensure that students, teachers, and staff are equipped with essential life-saving skills to handle emergencies effectively.

NEED FOR FIRST-AID EDUCATION

First-aid minimizes danger before a person is taken to a healthcare center. Quick and efficient action can make the difference between life and death. Recognizing the significance of First-Aid training, CBSE has emphasized its inclusion as part of co-curricular activities in schools to ensure students are prepared for emergencies.

AIMS OF FIRST-AID TRAINING

- To preserve life
- To promote recovery and health
- To prevent worsening of health conditions
- To empower students and staff with emergency response skills

KEY TRAINING MODULES

- Introduction to First-Aid
- Emergency Priorities
- Clearing and Opening the Airway
- Mouth-to-Mouth Resuscitation
- Checking for Pulse
- Cardio-Pulmonary Resuscitation (CPR)
- Road Traffic Accidents
- First-Aid Kit Essentials
- Dressings and Bandages
- Handling Bleeding, Burns, and Fractures
- Special Care for Shock and Unconscious Cases
- Transportation of Victims

FIRST-AID KIT

Every school must maintain a well-equipped First-Aid kit. Essential items include:

- Dressings for cuts and bruises
- Antiseptic creams and fluids
- Adhesive dressing strips
- Medications for common ailments.
- Disposable gloves, bandages, safety pins , ear buds, nail cutter and scissors
- Thermometer and sterile absorbent dressings.
- Hot water bag, wheelchairs, starchier.
